

MLG-80™ TRACE MINERAL LIQUID CONCENTRATE

MLG-80™ is a highly concentrated, acidic trace mineral liquid that delivers essential micronutrients for optimal health. This potent formula boasts a higher concentration of bioavailable trace minerals and lower fulvic acid content than other Mineral Logic products, making it an ideal choice for those seeking a powerful dose of minerals and electrolytes. With a pH ranging from 1.5 to 2.5, MLG-80™ requires dilution before ingesting, typically just 10-20 drops (0.5-1.0mL) daily. The mineral-rich taste reflects its potency and purity.

The versatility of MLG-80™ makes it an excellent choice for a wide range of applications. It can be used as a stand-alone product, taken directly in water, or added to your favorite beverages for a convenient and efficient way to boost your mineral intake. MLG-80™ is also an ideal ingredient for an array of formulations, allowing manufacturers to enhance the trace mineral content of their products. Whether you're looking to support your customers' overall health and well-being or create nutrient-dense products that stand out in the market, MLG-80™ is a powerful tool to help you achieve your goals.

Technical Information

- Product Number: HHD50
- 10-20 drops (0.5-1.0mL) daily dose
- pH 1.5-2.5
- Water extracted
- High trace mineral profile, low fulvic acid content
- Mineral-rich taste
- Can be used in droppers as a stand-alone product or in formulations

Mineral Logic Products are

- Manufactured in a cGMP-certified facility
- Made in the U.S.A.
- Concentrated, potent, bioavailable formulations
- Free of 500 pesticides & herbicides
- Kosher certified by OU
- Gluten and allergen-free
- Non-GMO
- Free of PAHs (Polycyclic Aromatic Hydrocarbons)
- Vegan and Vegetarian
- 100% soluble
- Free of chemicals or solvents
- Micronutrient rich with 70+ trace minerals and electrolytes

And provide these benefits*

- Powerful antioxidant capacity
- Promotes hydration at a cellular level
- Strong anti-inflammatory effects
- Maintains electrolyte balance
- Optimizes nutrient absorption
- Regulates immune system response
- Supports gut microbiome
- Enhances metabolism of sugars and carbohydrates
- Optimizes mitochondrial function
- Protects neuron function
- Boosts energy levels
- Supports detoxification
