

MLG-A50™ ALKALINE FULVIC MINERAL LIQUID CONCENTRATE

MLG-A50™ is a highly concentrated, alkaline fulvic mineral liquid that delivers essential micronutrients for optimal health. This powerful formula is tasteless and odorless, making it incredibly versatile and easy to incorporate into your daily wellness routine. It contains over 70 trace minerals, electrolytes, polyphenols, amino acids, and organic acids that work synergistically. With a pH ranging from 11 to 14, MLG-A50™ requires dilution before ingesting, typically just 10-20 drops (0.5-1.0mL) daily. This high alkalinity can help balance the body's pH levels, promoting a more alkaline state that supports overall health and vitality. Its fulvic acid content ranges from 3-7%, as verified by the standardized LAMAR method.

The versatility of MLG-A50™ makes it an ideal ingredient for a wide range of applications. It can be easily incorporated into beverage and supplement formulations, boosting essential micronutrients without altering the taste or aroma. MLG-A50™ can help nourish and revitalize the skin in cosmetic products, thanks to its rich mineral content and alkalizing properties. Whether bottled as a stand-alone concentrate or added to a formulation, this fulvic mineral complex is convenient and efficient for supercharging your customers health and vitality.
